Hohenstein Textile Testing Institute GmbH & Co. KG · County Court Stuttgart HRA 723464
Personally liable associate: Hohenstein Verwaltungs GmbH · County Court Stuttgart HRB 752904
CEO: Dr. Stefan Droste · Company Headquarter is Boennigheim

For technical reasons, the Institute will allocate a new test number to each order for the renewal of a certificate. The renewed certificate will always be issued under the master number indicated in the first certification. The master number in brackets will be suffixed to the current test number of this expertise and will serve to identify the relevant product. The additional designation "ZV" with a number indicates the number of times the certificate has been renewed.

The application for renewal of the certificate was submitted using the relevant forms issued for this purpose.

The applicant enclosed the declaration of conformity and agreed to the terms of use.

The originals of all necessary documents have been signed with a legally binding signature.

The orderer confirmed that no biological active product is used.

Further the orderer confirmed that no flame retardant product is used.

Information is provided regarding following changes:

- Inclusion: lace with pompom ball and tassel
- Change from product class IV to product class I

The copy/copies of Oeko-Tex® certificate/s (2020OK1127, 21.HBD.45883, 13.HBD.27171, 15.HBD.69211, 20.HBD.27348, 2019OK0784, 07.KA.56654, 2019OK0934, 04.B.8854, 2018OK1265, 17.HBD.22708, 19.HBD.94679) for the products in use was/were enclosed with the application.

The following certificate/s is/are no longer valid:

- 20.HBD.27348, 07.KA.56654

The orderer needs to contact his supplier/s in order to obtain a copy of the new and valid certificate/s.

The orderer has stated in a legally binding declaration that there is no additional wet treatment or other chemical treatment. Only mechanical changes are made where necessary.

The application was made for the following article group:

Home textiles (flat sheet/quilted bedspread, fitted sheet, quilt cover, pillow/cushion, pillow/cushion covers, loop curtain, apron/quilted apron, place mat, tea cosy, hospital pad, table runner/tablecloth, hand gloves/woven gloves, plain chair pad, sleeping bag and fitted mattress cover/protector) produced from woven fabric made of 100 % cotton, cotton/polyester in white, reactive and disperse dyed, rubber print on woven fabric made of 100 % cotton as well as knitted fabric made of 100 % cotton, white and reactive dyed; including accessories (sewing thread, woven and printed satin label, elastic tape, zipper, interlining, PES padding, lace with pompom ball and tassel); exclusively produced from material certified according to STANDARD 100 by OEKO-TEX®.

The four product categories specified in STANDARD 100 by OEKO-TEX® are described as follows:

Product-class	Definition
I	Products for babies Products for babies in context with this standard are all articles, basic materials and accessories, which are provided for the production of articles for babies and children up to 36 months.
II	Products with direct contact to skin Skin contact articles are those which are worn with a large part of their surface in direct contact with the skin (e.g. blouses, shirts, underwear etc.).

Product-class	Definition
III	Products without direct contact to skin No skin contact articles are those which are worn with only a little part of their surface in direct contact with the skin (e.g. stuffings, linings etc.).
IV	Decoration material Decoration material in context with this standard are all articles including initial products and accessories which are used for decoration such as table clothes, wall coverings, furnishing fabrics and curtains, upholstery fabrics and floor coverings.

According to the information provided by the orderer and to the specified area of use, product class I is applicable.

Representative sample material has been submitted.

TEST RESULT/S

Laboratory tests were not required. The articles are produced exclusively from Oeko-Tex® certified source materials. The certificates of the source materials have been submitted to prove this.

CONCLUSION

The material for which the certification was applied fulfils the specific requirements for product class I of STANDARD 100 by OEKO-TEX® Annex 6.

The certification of the following article group is approved:

Home textiles (flat sheet/quilted bedspread, fitted sheet, quilt cover, pillow/cushion, pillow/cushion covers, loop curtain, apron/quilted apron, place mat, tea cosy, hospital pad, table runner/tablecloth, hand gloves/woven gloves, plain chair pad, sleeping bag and fitted mattress cover/protector) produced from woven fabric made of 100 % cotton, cotton/polyester in white, reactive and disperse dyed, rubber print on woven fabric made of 100 % cotton as well as knitted fabric made of 100 % cotton, white and reactive dyed; including accessories (sewing thread, woven and printed satin label, elastic tape, zipper, interlining, PES padding, lace with pompom ball and tassel); exclusively produced from material certified according to STANDARD 100 by OEKO-TEX®.

Each holder of certificate has signed for the quality of his articles on his own responsibility. This is in accordance with the given declaration of conformity. He is committed to ensure this by suitable and sufficient spot checks. This commitment includes the quality of bought materials, too. In the case of delegating parts of this quality assurance to others the certifying body must be fully acquainted (see point 4 "Conformity declaration").

Oeko-Tex® is authorized to carry out spot checks in order to inspect the certified goods. The certificate holder will receive a separate test report with the results of these inspections.

If the spot checks reveal a deviation from the limit values, additional tests will have to be carried out. The relevant costs will be charged to the certificate holder.

The applicant is responsible for checking the validity of the certificates issued to his suppliers.

If the term of validity of these certificates expires within the term of validity of the applicant's certificate, he is obliged to request updated or extended certificates from his suppliers.

Copies of updated certificates from suppliers should be presented as proof and for documentation purposes under the test number of the applicant's certificate.

The current version of STANDARD 100 by OEKO-TEX® is edition 03/2021. It can be downloaded directly from the Oeko-Tex® Homepage (<http://www.oeko-tex.com>).

Division Manager OEKO-TEX®
